

quant Mutual Fund “Schemes”

Powered by VLRT framework

June 2021

multi asset, multi manager

Being Relevant with 'predictive analytics'

The core engine that drives us and sets us apart is a robust and differentiated investment framework that enables us to see beyond the horizon and stay relevant. Our unique analytical framework for enabling 'predictive analytics' encompasses all available asset classes and sectors, formulating a multi-dimensional research perspective.

Why multi-dimensional?

The markets are a complex, dynamic system. There is no one formula or strategy or perspective that can consistently outperform.

A diverse set of variables and participants are continuously interacting with each other in myriad ways.

In the face of this uncertainty and complexity, instead of limiting ourselves to any one school of thought
we have found consistent success by studying markets along four dimensions:

Valuation, Liquidity, Risk Appetite, and Time. [VLRT]

VALUATION

Knowing the difference between price and value.

RISK APPETITE

Perceiving what drives market participants to certain actions and reactions.

TIME

Being in sync with the waves of value and behaviour

LIQUIDITY

Understanding the flow of money across asset classes.

active

In a dynamic world that is continuously changing due to technology and increasingly volatile geopolitics, passive investment strategies can no longer outperform. Alpha belongs to active strategies that can invest in sync with the dynamics at play.

Being relevant comes by staying active.

absolute

We believe consistent outperformance requires complete freedom from looking at the world relatively. It is why we design investment strategies with an absolute objective irrespective of market conditions. With this absolute objective, comes clarity of thought.

Being relevant requires an absolute focus on returns.

unconstrained

Embedded within our processes and systems is the conviction that the surest way to success in investing is through cultivation of a multitude of opinions and perspectives. By bringing together this diversity of ideas within our investment framework, we aim to unearth every possible opportunity in any set of circumstances.

Being relevant means having an unconstrained perspective.

MEASURABLE IS RELIABLE

Measurable is reliable

For success in investing, discipline is of more importance than any other attribute of the investment process. Our battle-tested suite of proprietary valuation, liquidity and risk indicators along with extensive financial modelling ensure that we consistently deliver superior results.

QUANTAMENTAL INVESTING

Quantamental investing

While measurable is reliable, we also believe the economy and markets cannot be captured completely by models and indicators. Human judgement that comes from years of trading and investing experience has immense value. For optimal results, our decision-making seeks to find the harmony between objectivity and subjectivity.

MULTI ASSET MANAGER

Multi-asset, multi-manager

We believe that safeguarding investor wealth is paramount. Apart from reducing risk by investing across asset classes, we take diversification to another dimension by ensuring every investment decision comes from a focused discussion between investment managers with a diverse set of capabilities and experience.

MONEY FLOWS FROM ONE ASSET CLASS TO ANOTHER

Money flows from one asset class to another.

Money is a form of economic energy - the quantification of human effort. As the world evolves, a dynamic set of ideas continuously lead the change. Money flows and grows with these pioneering ideas. Identifying them and the specific assets that benefit is the surest and most consistent method for generating wealth.

TIMING IS EVERYTHING

Timing is everything

In our framework, time is a critical aspect of investing as the three dimensions of Valuation, Liquidity and Risk interact and move together in cycles across different periods. Alpha generation is optimised only by sanguine identification of the extremes.

The advertisement features a dark blue background with a white border. At the top left, the 'quant' logo is in white, and 'ACTIVE FUND' is in green. On the left, a green lightbulb icon contains a white upward-pointing arrow. To the right of the lightbulb, the text 'We bring the benefits of' is in white, followed by 'AN ACTIVE LIFESTYLE' in large, bold, white capital letters, and 'to your Investments' in smaller white text. Below this, a horizontal line separates the text 'INVEST IN OUR PHILOSOPHY' from the words 'active | absolute | unconstrained' in white. At the very bottom, in small white text, it says 'Mutual Funds investments are subject to market risks. read all scheme related documents carefully'.
