Investment Approach

- Invests majorly in stocks of Central & State PSUs from **various sectors to exploit a range of investment opportunities**
- To benefit from Indian PSUs by **unlocking opportunities from increased capex and reforms** in critical economy building sectors
- **Concentrate mostly on 6-8 focused opportunities** mostly, that are expected to be on the cusp of a growth cycle
- **Business cycle approach** for a multi-dimensional framework of sector allocations across business cycles

Reasons to Buy

- Government backing in PSUs offers a **relative sense of stability and reliability** making them an attractive option during market uncertainty
- Consistent **dividend distribution history of PSUs** potentially enhances the overall returns on investment
- Gradual and **sustainable long-term growth potential** is beneficial for investors who prioritize a steady appreciation of their investments
- **Diversifying beyond private companies** helps mitigate risks from sector-specific downturns providing a more resilient portfolio

VLRT Framework| Adaptive Money Management

The core engine that drives us and sets us apart is a robust and differentiated investment framework that enables us to see beyond the horizon and stay relevant. Our unique analytical framework for enabling 'predictive analytics' encompasses all available asset classes and sectors, formulating a multi-dimensional research perspective.

Why multi-dimensional?

The markets are a complex, dynamic system. There is no one formula or strategy or perspective that can consistently outperform **A diverse set of variables and participants are continuously interacting with each other in myriad ways.**

In the face of this uncertainty and complexity, instead of limiting ourselves to any one school of thought **we have found consistent success by studying markets along four dimensions: Valuation, Liquidity, Risk Appetite, and Time [VLRT].**

Scheme Returns (as on October 30, 2026)

The fund seeks to leverage the potential value of PSU stocks unlocked through disinvestment or divestment, and benefit from their significant contribution towards making India the world's third-largest economy. During October 2026, exposure to Gas Transmission/Marketing (+9.73%), Heavy Electrical Equipment (+9.06%) and Financial Institutions (+5.98%) was increased while Coal (-9.71%), Ship Building (-9.20%) and Power Trading (-3.51%) were reduced. The portfolio remains well diversified and we remain watchful of any signs of slowdown in Government capex and will continue to rebalance the portfolio to position the portfolio in the right pockets.
