The units being offered for public subscription have not been approved or disapproved by SEBI, nor has SEBI certified the accuracy or adequacy of this KIM.

This Key Information Memorandum is dated _____.

Investment Objective

The primary investment objective of the scheme is to generate long term capital appreciation by investing in a diversified portfolio of companies demonstrating sustainable practices across Environmental, Social and Governance (ESG) parameters. There is no assurance that the investment objective of the Scheme will be realized.

Asset Allocation Pattern of the scheme

Asset Class Allocation	Normal Allocation (% of net assets)	Risk Profile
Equity and Equity related instruments of companies with favorable Environmental, Social and Governance (ESG) criteria	80-100	High
Other Equity and Equity related securities	0-20	High
Debt & Money Market instruments	0-20	Low to medium
Units issued by REITs & InvITs	0-10	Medium to High

The Scheme retains the flexibility to invest across all the securities in the debt and money markets as permitted by SEBI / RBI from time to time, including schemes of mutual funds.

Overseas Investments

Under normal circumstances the Schemes shall not have an exposure of more than 35% of its net assets in foreign assets / securities / instruments including ADRs / GDRs, subject to applicable regulatory limits.

Trading in Derivatives

The scheme may take exposure to derivative instruments upto 100% of net assets. And, the scheme may use 100% of net assets exposure for hedging purpose and shall not exceed 50% of net assets for other than hedging purpose. Further, Investment in derivatives instruments may also use in the manner permitted by Regulations / guidelines issued by SEBI from time to time.

Securitized debt

Investment in Securitized debt (excluding foreign securitized debt), if undertaken, would not exceed 10% of the net assets of the Scheme.

Investment in Foreign Securities

The Scheme may seek investment opportunities in foreign securities including ADRs / GDRs / Foreign equity and debt securities subject to SEBI (MF) Regulations. Such investment shall not exceed 35% of the net assets of the Scheme.

Investment Strategy of the Scheme

The investment strategy of the Scheme will be to invest in a basket of securities based on combining existing traditional fundamental, bottom-up financial analysis along with a rigorous analysis on the environmental, social and governance aspects of the company. The ESG analysis will be based on a comprehensive ESG framework adopted from some of the global best practices. The ESG process will be executed at various levels.

Sector level screening

The scheme will exclude sectors/themes that are deemed harmful from a societal perspective. We will avoid investment in companies operating in those industries and maintain that exclusion on an ongoing basis. For example we will not invest in companies involved in Cluster Munitions, Anti- Personnel Mines, and Chemical and Biological Weapons. We will not hold any security that is involved in the production, stockpiling, transfer and use of these weapons.

Stock level screening

Apart from sector exclusion list, we will not invest in stocks which throw up ESG red flags as a part of our review, even if the company is from a sector that is not a part of exclusion list.

Portfolio Construction

We believe that evaluating a company from an ESG perspective requires a detailed qualitative approach that should complement our existing fundamental based investment process workings rather than a simplistic standalone scoring based inclusion/exclusion matrix for individual stocks. We intend to be active owners of the companies in which we invest and to reflect environmental, social and governance (ESG) value drivers within our investment process by following below steps.

Step 1: Initial detailed ESG assessment of every company at the time of its inclusion in the investment universe will be carried out. The assessment will be based on a detailed sector- specific questionnaire that will be completed by the analyst in discussion with the company. Thus every company will undergo a detailed ESG due diligence in addition to the fundamental ground work before entering the universe.

Step 2: Ongoing detailed assessment and evaluation of ESG issues or concerns will be carried out periodically to ensure that changes to the operating environment

are captured. In case of any concerns on ESG front indicating any risk that may be detrimental to the long term shareholder value or in case of no evidence of any steps taken to strengthen safety measures, may lead to exclusion of the security from the universe.

Step 3: In case of any specific ESG issue facing the company, a detailed review of the same to be carried out by the analyst and the impact discussed with the company management.

Step 4: Active engagement with the company management, ownership in terms of improved disclosure of ESG matters and voting on proxy items keeping ESG aspect in mind.

While the more traditional financial indicators and the analysis of business strategy form the basis of investment decisions, ESG factors may impact the investments in two ways – first through size of position given its impact on the inherent risk to our financial forecasts and secondly through our view of the ultimate long term value of company based on its readiness to face some of these issues, from both an upside and downside perspective. We will primarily focus on the longer term impact of ESG issues rather than unduly weighting factors which are currently occupying market attention.

The underlying theme driving the relative allocation will be QMML research's ability to identify cross asset, cross market inflexion points. This quantitative approach is based on our proprietary VLRT framework, wherein we incorporate the full spectrum of data along deeper aspects related to the three axis of Valuation, Liquidity, and Risk appetite and view it in a dynamic setting – Time, thus, forming the multi-dimensional VLRT framework. The formulation of this macro narrative guides our micro level stock selection.

QMML's predictive analytics toolbox formulates a multidimensional research perspective to various asset classes. Research has shown that optimal entry and exit points into various asset classes can be identified through the identification of bouts of extreme greed and fear in the market. QMML differentiates itself by not only being able to identify bouts of greed and fear, but by its ability to quantify bouts of euphoria and capitulation. This helps guide us in identifying the optimal level of cash/debt allocation in the scheme.

QMML may, from time to time, review and modify the Scheme's investment strategy if such changes are considered to be in the best interests of the unitholders and if market conditions warrant it. Though every endeavor will be made to achieve the objective of the Scheme, the AMC / Sponsors / Trustee do not guarantee that the investment objective of the Scheme will be achieved. No guaranteed returns are being offered under the Scheme.

Risk Profile of the Scheme

Mutual Fund investments are subject to market risks. Please read the SID carefully for details on risk factors before investment. Scheme specific risk factors are summarized below:

Risk factors associated with investing in equities and equity related instruments

1. Equity shares and equity related instruments are volatile and prone to price fluctuations on a daily basis. Investments in equity shares and equity related instruments involve a degree of risk and investors should not invest in the Scheme unless they can afford to take the risks.
2. Securities, which are not quoted on the stock exchanges, are inherently illiquid in nature and carry a larger amount of liquidity risk, in comparison to securities that are listed on the exchanges. Investment in such securities may lead to increase in the scheme portfolio risk.

Risk factors associated with investing in debt and money market instruments

Credit Risk

Debt instruments carry a Credit Risk, which essentially implies a failure on the part of the issuer of the security to honour its principal or interest repayment obligations. This inability of a credit issuer to honour its obligation is generally a function of underlying performance of the asset, in terms of generating the requisite cashflows. Credit risks of debt securities are rated by independent rating agencies. These ratings range from 'AAA' (read as 'Triple A' denoting 'Highest Safety') to 'D' (denoting 'Default'), with intermediate ratings between the two extremes. Deteriorating credit profile of an issuer may lead to a rating agency lowering the rating on its debt instruments; this is likely to lead to a fall in the price of these instruments.

Liquidity Risk

Liquidity risk for debt instruments refers to the possibility that there might not be a ready buyer for the debt instrument at a time when the scheme decides to sell it. Liquidity risk is generally a function of the issuer (government securities are generally more liquid than corporate bonds), ratings (higher rated instruments are generally more liquid), and tenure (near tenure instruments are generally more liquid).

Interest-Rate Risk

In case of fixed income bearing debt instruments, when interest rates rise, prices of the securities decline and when interest rates fall, the prices increase. The extent of sensitivity of a security to movement in interest rates is determined by its duration, which is a function of the existing coupon, the payment-frequency of such coupon, and days to maturity. Floating rate securities, with coupon linked to market interest rates have less sensitivity to interest rate risk.

Re-investment Risk

Investments in fixed income securities carry re-investment risk as interest rates prevailing on the coupon payment or maturity dates may differ from the original coupon of the bond.

Prepayment Risk

Certain fixed income instruments come with a 'call

option' which give the issuer the right to redeem the security through prepayment before the maturity date. This option is generally exercised in periods of declining interest rates, and will result in the scheme having to reinvest the proceeds of prepayment at lower yields, resulting in lower interest income.

Basis Risk

The underlying benchmark of a floating rate security or a swap might become less active or may cease to exist and thus may not be able to capture the exact interest rate movements, leading to loss of value of the portfolio.

Spread Risk

In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. In the life of the security this spread may move adversely leading to loss in value of the portfolio. The yield of the underlying benchmark might not change, but the spread of the security over the underlying benchmark might increase leading to loss in value of the security.

Liquidity Risk

The liquidity of a bond may change, depending on market conditions leading to changes in the liquidity premium attached to the price of the bond. At the time of selling the security, the security can become illiquid, leading to loss in value of the portfolio.

Liquidity Risk on account of unlisted securities

The liquidity and valuation of the Schemes' investments due to their holdings of unlisted securities may be affected if they have to be sold prior to their target date of divestment. The unlisted security can go down in value before the divestment date and selling of these securities before the divestment date can lead to losses in the portfolio.

Settlement Risk

Fixed income securities run the risk of settlement which can adversely affect the ability of the fund house to swiftly execute trading strategies which can lead to adverse movements in NAV.

Risk associated with Securitized Debt

The Scheme may invest in domestic securitized debt such as Asset Backed Securities (ABS) or Mortgage Backed Securities (MBS). ABS are securitized debts where the underlying assets are receivables arising from various loans including automobile loans, personal loans, loans against consumer durables, etc. MBS are securitized debts where the underlying assets are receivables arising from loans backed by mortgage of residential / commercial properties.

At present in Indian market, following types of loans are securitized:

1. Auto Loans (cars / commercial vehicles /two wheelers)
2. Residential Mortgages or Housing Loans
3. Consumer Durable Loans

4. Personal Loans

5. Corporate Loans

In terms of specific risks attached to securitization, each asset class would have different underlying risks. Residential Mortgages generally have lower default rates than other asset classes, but repossession becomes difficult. On the other hand, repossession and subsequent recovery of commercial vehicles and other auto assets is fairly easier and better compared to mortgages. Asset classes like personal loans, credit card receivables are unsecured and in an economic downturn may witness higher default. A corporate loan/receivable, depend upon the nature of the underlying security for the loan or the nature of the receivable and the risks correspondingly fluctuate.

Risk Mitigation

Risk & Description specific to Equities	Risk Mitigants / Management Strategy
Quality risk Risk of investing in unsustainable / weak companies.	Investment universe carefully selected to only include high quality businesses.
Price risk Risk of overpaying for a company.	"Fair value" based investment approach supported by comprehensive research.
Risk of fluctuations in the value of the investment portfolio	The Scheme may use techniques and instruments such as futures and options etc. to hedge the risk of fluctuations in the value of the investment portfolio. The scheme may enter into derivatives transactions in a recognised stock exchange for the purpose of hedging and portfolio balancing in accordance with the guidelines and circulars issued by SEBI from time to time.
Concentration risk	In order to diversify individual company risk, the fund will on an average and under normal circumstances invest across companies across various sectors. The quantum of exposure shall be decided on the basis of relative earnings, growth, valuations and potential valuations. As the fund intends to hold less number of stocks than a diversified growth

	fund, the NAV volatility (risk)
Credit Risk	This risk shall be mitigated by investing in papers which have a high degree of safety. Further this risk is minimal in case of securities issued by central / state government/.
Liquidity Risk	This risk shall be mitigated by striving to avoid investing in thinly traded securities or securities with lower volumes.
Interest-Rate Risk	This risk can be mitigated by the fund manager striving to maintain portfolio duration which is appropriate for market conditions.
Prepayment Risk	This risk can be mitigated by minimizing investments in securities with 'call options', unless favourable market conditions makes investments in such securities attractive.

If only the email id of the investor is registered with qMF, investor can execute Transaction through Call Center, Transaction through mobile WAP (Web Access Portal Site, Transaction through qMF website). If only the mobile number of the investor is registered with quant Mutual Fund, investor can execute transaction only through SMS. For further details investors are requested to refer SAI.
- (20) Kindly note that in case of a folio with joint Unitholders, having mode of operations as "either or survivor" or "anyone or survivor any one of the Investor(s) can transact through SMS, provided that such instruction is received vide a SMS from the mobile number registered with qMF with respect to the concerned folio.

- (21) **Permanent Account Number (PAN):** SEBI has made it mandatory for all applicants (in the case of application in joint names, each of the applicants) to mention his/her permanent account number (PAN) irrespective of the amount of purchase. Where the applicant is a minor, and does not possess his / her own PAN, he / she shall quote the PAN of his/ her father or mother or the guardian, signing on behalf of the minor, as the case may be. In order to verify that the PAN of the applicants (in case of application in joint names, each of the applicants), the applicants shall attach along with the purchase application, a photocopy of the PAN card duly self-certified along with the original PAN Card. The original PAN Card will be returned immediately across the counter after verification. Micro SIP & Investors residing in the state of Sikkim are exempted from the mandatory requirement of PAN proof submission however they are required to mandatorily submit KYC Acknowledgement copy. Applications not complying with the above requirement may not be accepted/processed. Additionally, in the event of any Application Form being subsequently rejected for mismatch / non-verification of applicant's PAN details with the details on the website of the Income Tax Department, the investment transaction will be cancelled and the amount may be redeemed at the applicable NAV, subject to payment of exit load, if any. Please contact any of the Investor Service Centres/Distributors or visit our website www.quant-mutual.com for further details.
- (22) **Prevention of Money Laundering and Know Your Client (KYC):** SEBI has prescribed uniform KYC compliance procedure for all the investors dealing with them. SEBI also issued KYC Registration Agency ("KRA") Regulations 2011 and the guidelines in pursuance of the said Regulations and for In-Person Verification ("IPV"). All investors (individual and non-individual) are required to be KYC compliant. However, applicants should note that minors cannot apply for KYC and any investment in the name of minors should be through a Guardian, who should be KYC compliant for the purpose of investing with a Mutual Fund. Should the applicant desire to change KYC related information, POS will extend the services of effecting such changes. In case of an existing investor of qMF who is already KYC Compliant under the erstwhile centralized KYC with CVL (CVL/MF) then there will be no effect on subsequent Purchase/Additional Purchase (or ongoing SIPs/STPs, etc) in the existing folios/accounts which are KYC compliant. Existing Folio holder can also open a new folio with quant Mutual Fund with the erstwhile centralized KYC.
- (i) In case of an existing investor of quant Mutual Fund and who is not KYC Compliant as per our records, the investor will have to submit the standard KYC Application forms available in the website www.cvlkra.com along with supporting documents at any of the SEBI registered intermediaries at the time of purchase / additional purchase / new registration of SIP/STP etc. In Person Verification (IPV) will be mandatory at the time of KYC Submission.
- (ii) Investors who have complied with KYC process before December 31, 2011 (KYC status with CVL-KRA as "MF - VERIFIED BY CVL/MF") and not invested in the schemes of quant Mutual Fund i.e. not opened a folio earlier, and wishes to invest on or after December 01, 2012, such investors will be required to submit 'missing/not available' KYC information and complete the IPV requirements.
- Update of 'missing / not available' KYC information along with IPV is currently a one-time requirement and needs to be completed with any one of the mutual funds i.e. need not be done with all the mutual funds where investors have existing investments. The said form is available on qMF's website i.e. www.quant-mutual.com or on the website of Association of Mutual Funds in India i.e. www.amfiindia.com or on the website of any authorised KRA's. Once the same is done then the KYC status at CVL-KRA will change to 'Verified by CVL KRA' after due verification. In such a scenario, where the KYC status changes to 'Verified by CVL KRA', investors need not submit the 'missing/not available' KYC information to mutual funds again.
- (23) **Communication for the investors:** In accordance with SEBI Circular No. CIR/IMD/DF/16/ 2011 dated September 8, 2011 and SEBI Circular no. CIR/MRD/DP/31/2014 dated November 12, 2014 the investor whose transaction has been accepted by quant Mutual Fund shall receive a confirmation by way of email and/or SMS within 5 Business Days from the date of receipt of transaction request, same will be sent to the Unit holders registered e-mail address and/or mobile number.
- Thereafter, a Consolidated Account Statement ("CAS") shall be issued in line with the following procedure:
- Consolidation of account statement shall be done on the basis of PAN. In case of multiple holding, it shall be PAN of the first holder and pattern of holding.
 - The CAS shall be generated on a monthly basis and shall be issued on or before 10th of the immediately succeeding month to the unit holder(s) in whose folio(s) transaction(s) has/have taken place during the month.
 - In case there is no transaction in any of the mutual fund folios then CAS detailing holding of investments across all schemes of all Mutual Funds will be issued on half yearly basis (at the end of every six months i.e. September/March).
 - Investors having MF investments and holding securities in Demat account shall receive a Consolidated Account Statement containing details of transactions across all Mutual Fund schemes and securities from the Depository by email / physical mode.
 - Investors having MF investments and not having Demat account shall receive a Consolidated Account Statement from the MF Industry containing details of transactions across all Mutual Fund schemes by email / physical mode. The word 'transaction' shall include purchase, redemption, switch, dividend payout, dividend reinvestment, systematic investment plan, systematic withdrawal plan and systematic transfer plan transactions. CAS shall not be received by the Unit holders for the folios wherein the PAN details are not updated. The Unit holders are therefore requested to ensure that the folio(s) are updated with their PAN. For Micro SIP and Sikkim based investors whose PAN details are not mandatorily required to be updated Account Statement will be dispatched by quant Mutual Fund for each calendar month on or before 10th of the immediately succeeding month.
- In case of a specific request received from the Unit holders, qMF will provide the account statement to the investors within 5 Business Days from the receipt of such request.
- (24) **Units held in the dematerialised form:** Unitholders can have a option to hold the units in dematerialized form in terms of the guidelines / procedural requirements as laid by the Depositories (NSDL/CDSL) / Stock Exchanges (NSE / BSE). Please ensure that the sequence of names as mentioned in the application form matches with that of the account held with any one of the Depository Participant.
- (25) Employee Unique Identification Number (EUIDN) would assist in tackling the problem of mis-selling even if the employee/relationship manager/sales person leave the employment of the distributor.
- (26) **STEP-UP Facility:** Under this facility the investor can increase the SIP installment (including MICRO SIP) at pre-defined intervals by a fixed amount. This facility is available for individual investors only. For availing the said facilities, investors are required to note the following:
- Investor willing to register STEP-UP should provide the STEP-UP details along with the SIP enrolment details and is also required to fill up "One Time Bank Mandate Form" from which the amount shall be debited. Investors who are currently registered under Invest Easy - Individuals facility may avail this facility without registering the One Time Bank Mandate. 2. The minimum amount for STEP-UP facility is ₹1000/- and in multiples of ₹1000/- (except for quant Tax Saver (ELSS) Fund for which the minimum amount shall be ₹500/- and in multiple of ₹500/-). 3. Monthly SIP offers STEP-UP frequency at half yearly and yearly intervals. Quarterly and Yearly SIP offers STEP-UP frequency at yearly interval only. In case STEP-UP frequency is not indicated, it will be considered as Yearly by Default. 4. There should be clear indication about STEP-UP Count i.e. the number of times the SIP installment amount should be increased. In case STEP-UP amount is mentioned and STEP-UP count is not indicated, it will be considered as 1 (One) by Default. 5. The date for STEP-UP Facility will correspond to the registered SIP. The enrolment period specified in the STEP-UP form should be less than or equal to the enrolment period mentioned in the SIP. 6. In case of any deviation in period, the tenure of the SIP shall be considered. Folio with status Minor are not eligible for STEP-UP facility.
