FLEXI CAP FUND

equities | why are they preferred

Long Term Gains

Equities provide the highest potential for maximum capital appreciation over the long term along with income through dividends

Liquidity

Equities generally are among the most liquid class of assets and can be liquidated anytime when contingencies arise

Inflation Adjusted Returns

Equities have the potential to deliver returns in excess of inflation and is a true wealth builder in inflation adjusted terms and in terms of long term capital appreciation

Tax Advantage

Equities are among the most tax friendly asset classes, creating lower tax obligations compared to other asset classes

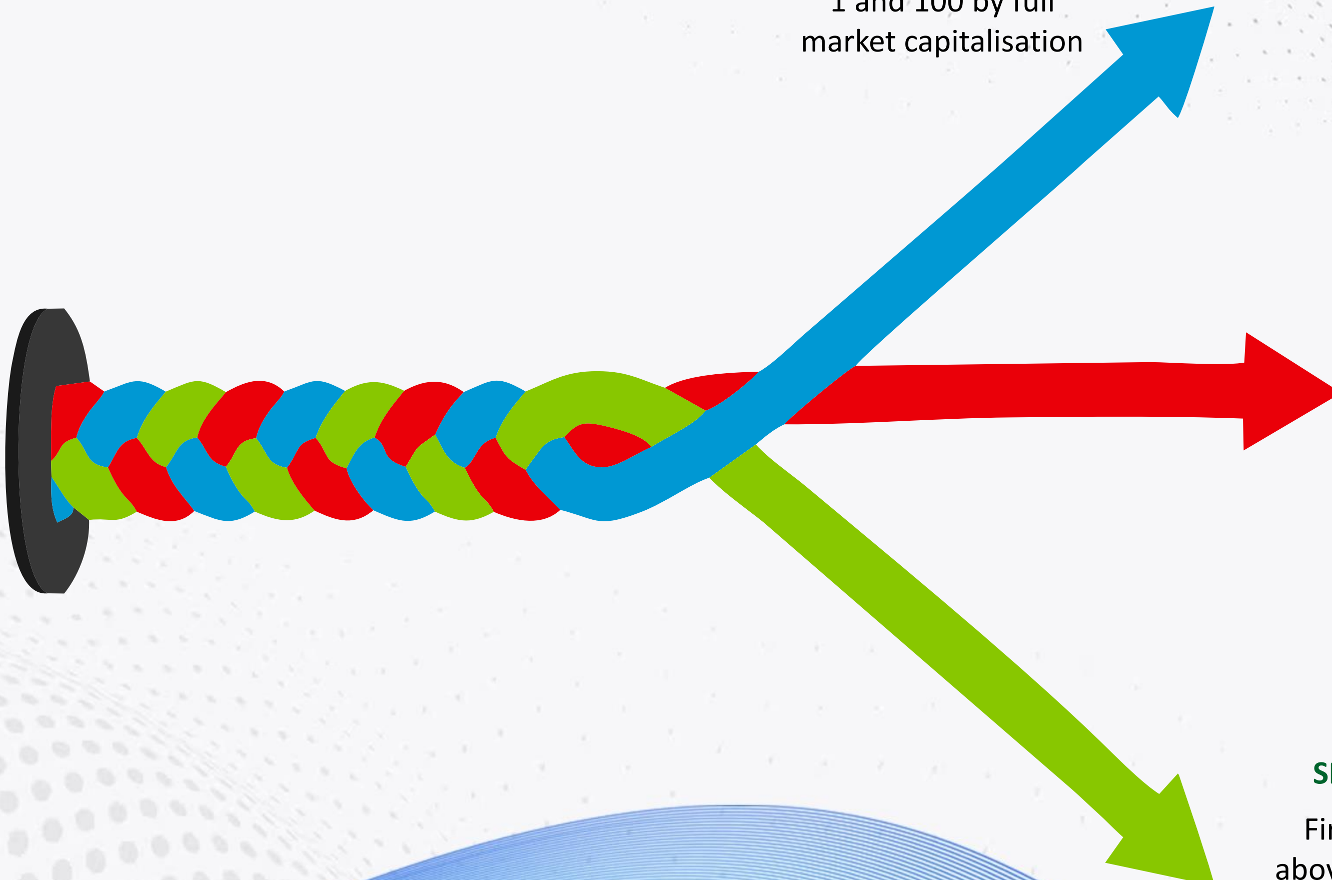
Goal Accelerator

It has been empirically seen that a well managed diversified equity investment can potentially help realize financial goals faster due to the inherent nature of equities

equities | come in 3 different caps

Total Market Capitalisation of S&P BSE Sensex
(July 2023)

₹301.70 lakh crores
(US$3.8 trillion)



LARGE CAP

Firms ranked between 1 and 100 by full market capitalisation

MID CAP

Firms ranked between 101 and 250 by full market capitalisation

SMALL CAP

Firms ranked above 250 by full market capitalisation

flexi cap funds | multi cap + power of flexibility

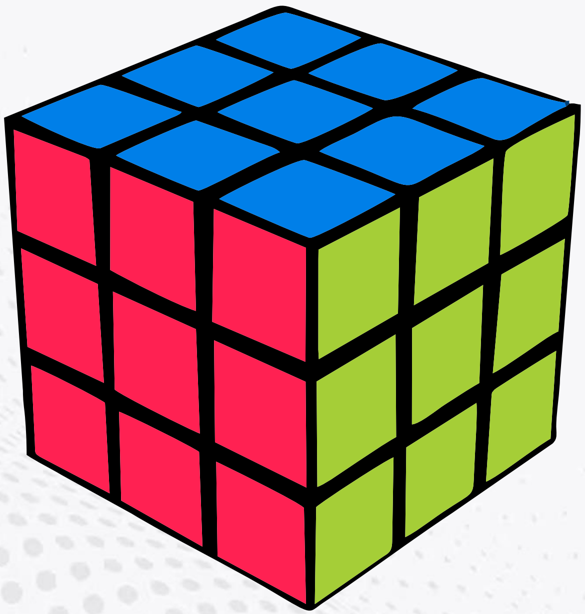
quant FLEXI CAP FUND

- Flexi cap funds invest in opportunities across the market spectrum, i.e. they have a multi cap focus with an inherent quality of flexibility
- Flexibility allows the scheme to manage its overweight/underweight exposure to large/mid/small cap stocks dynamically
- Investing in a varying combination of large/mid/small cap stocks and sectors can be an attractive and flexible tool to achieve your investment goals
- Works on the principle of diversification by spreading money across more investment choices
- Flexi cap funds can mitigate risk more effectively due to a wider choices and flexibility to navigate among them Potential to provide competitive total return

A flexi cap strategy emphasizes on a mix of large/mid/small cap stocks from various sectors that can be dynamically rebalanced, in view of short to long term opportunities and risks, to strive for optimum investment outcomes

market cap allocation | optimizing growth and preservation

- Flexi-cap funds offer a diversified portfolio due to which the fund balances the risk and return aspects better
- These funds are also known to deliver steady returns even during times of a bear market phase
- A flexible combination of large, mid, and small cap stocks should be part of investors’ core portfolio



Large Cap

Low growth + Lower relative risk
(well established, large market share, high performance, profitable, good reputation, least volatile during recession, highest liquidity)

Mid Cap

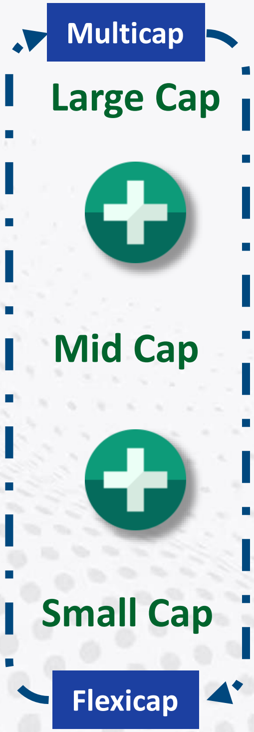
Medium growth + Higher relative risk
(well established, growing market share, high performance, potential to out-run large caps, more volatile than large caps, high liquidity)

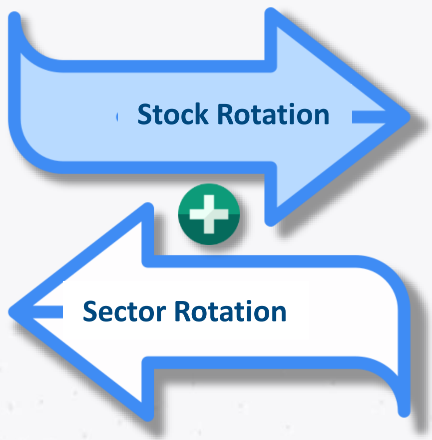
Small Cap

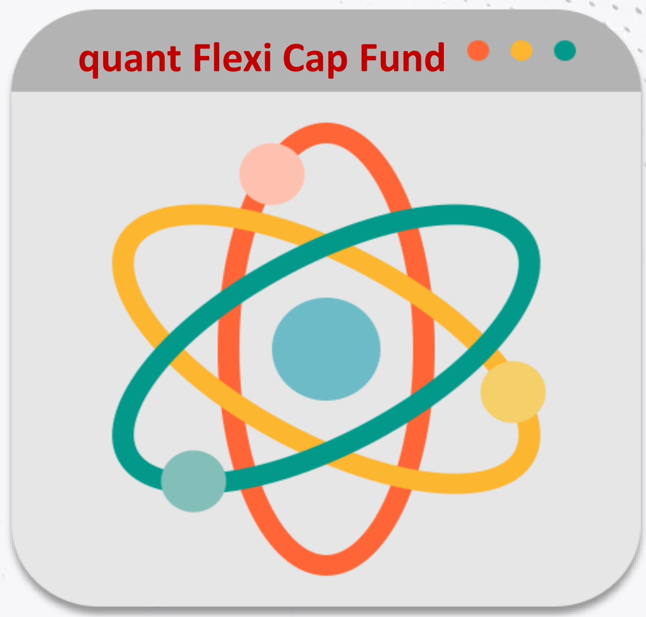
Highest growth + Highest relative risk
(high returns potential than large and mid caps, can become bigger in future and break into midcap league, most volatile, low liquidity as compared to large and mid caps)

quant flexi cap fund | uncapping the potential of 100% fungibility

- No minimum cap limits. The money manager is free to be underweight / overweight across market caps, depending on his perception of risk/reward
- Dur to 100% fungibility, money manager can exclude one cap in favour of the other two, or remain invested in just one market cap until the next turn of the tide
- Zero sector bias and permits investing in attractively valued high growth /defensive sectors as the need may be







Dynamic and unconstrained portfolio

quant Flexicap Fund has the flexibility to move across Large, Mid, and Small caps depending on attractiveness of each market cap. We **dynamically rebalance exposure to market caps and sectors** on the basis of our VLRT Framework and Predictive Analytics indicators

Fund Positioning

- For investors wishing to **benefit from long term growth potential through 100% flexibility in investing across large, mid, and small cap companies**
- Investors with a **long-term horizon (3 years and above) and aiming for reasonable returns from equities with lower volatility and risk mitigation over the long term**
- Investors who **wish to participate in the upside potential of mid and small cap stocks, while enjoying the relative stability of large cap stocks, through dynamic portfolio rebalancing**

Fund Strategy

- The scheme **invests minimum 65-100% in equity and related instruments, 0-35% in debt and related instruments**
- The scheme has **flexibility and 100% fungibility to invest** in companies across market caps to **optimize risk-return payoffs**
- Our **money managers construct an unconstrained portfolio** and **deftly balance market caps and sectors to achieve an optimum investment outcome** while minimizing risk
- Our signature **VLRT Framework and Predictive Analytics tools dynamically manages** known risks and identifies opportunities

quant flexi cap Fund | reasons to buy

Unconstrained in Search of Opportunity

Diversified across market caps and sectors while constantly seeking appropriate balance of risk and return. Unconstrained investment strategy searches out compelling growth and hedging opportunities across market caps

Portfolio Stability

With exposure to large cap companies which have withstood the test of time and several business cycles, their earnings growth is stable and can likely provide downside protection during turbulent markets

Portfolio Growth

Provides a chance to grow your wealth from the high growth potential of mid and small cap companies that are just at the beginning of their growth journey and on the cusp of a new level of growth

Flexible Diversification

Since the portfolio is spread across market capitalizations and sectors, it gives you an opportunity to diversify your portfolio and effectively manage risk and return

Risk Mitigation

The money manager can go overweight or underweight on any particular market cap or sector after assessing opportunities and risks through multiple lenses

quant flexi cap Fund | key scheme benefits

FLEXI CAP FUND

Multiple Opportunities

Invests in all three market caps and cultivates a diversified investment strategy, backed by analysis, insights, and predictive analysis tools, which are instrumental to achieving long-term investment success

Adaptive Portfolio

Allocating a portion of one's portfolio to the broader equity markets allows investors to participate in potential upside while mitigating associated risks. Adapts to changing markets through our 'Dynamic Style of Money Management'

Strong Risk Management Foundation

Spreading investments across market caps and sectors minimizes the impact of any one market cap's performance on the overall portfolio and protects against market volatility and significant losses

Convenience and Simplicity

Instead of individually managing investments across market caps, investors enjoy a single point access to broader equity markets and opportunities.

No Missing Out

Investors can reduce the chance of missing out a rally in any segment of the equity market. As various market caps move at different points in time, the money manager rebalances the portfolio to optimize the fund's risk–return profile

Expertise in Cycles Analytics

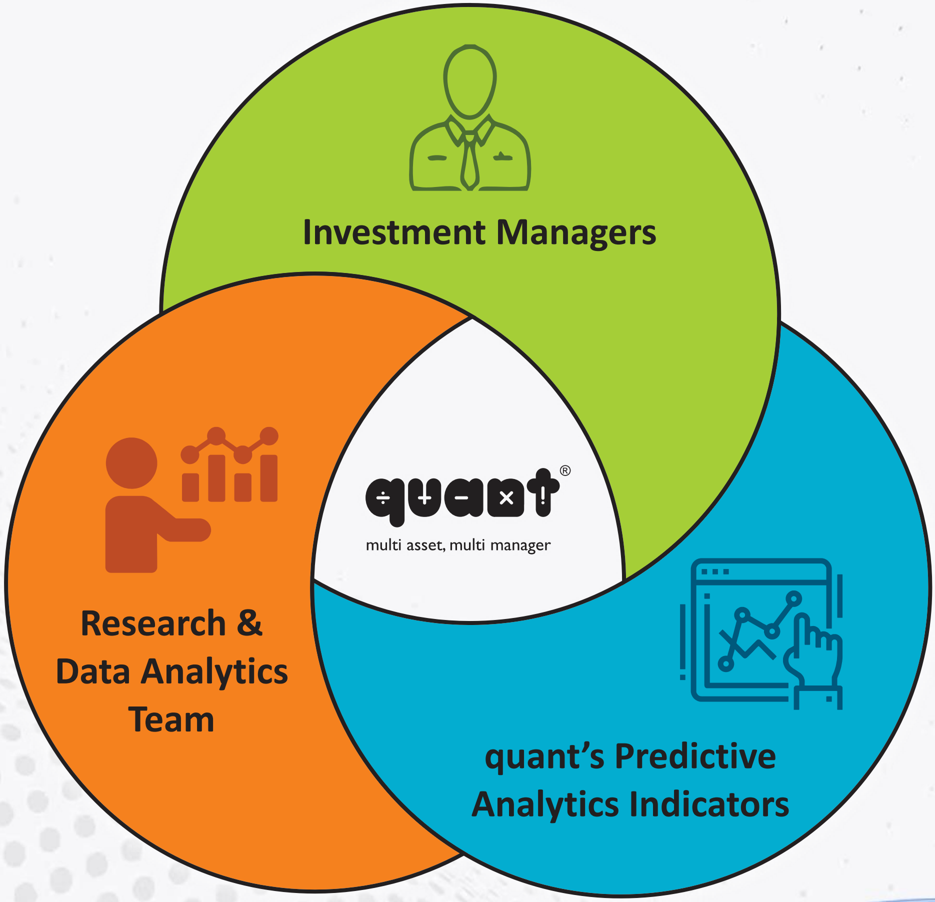
The fund adapts to changing market conditions, with our experienced money managers actively adjusting the portfolio. This approach aims for consistent returns and effective navigation through market cycles

quant small cap fund | investment process | from macro to micro

quant pursues global research with a focus on financial markets and the real economy which includes the real economy and leveraged economy. We place a large emphasis on the role of participants' behavior. This idea has evolved into a multi-dimensional research perspective which is now formulated in our VLRT framework.

In a dynamic world, it is not just a choice but a necessity to adopt a multi-dimensional approach

The world is becoming non-linear and parabolic and to stay relevant, money managers must think with an unconstrained mind, actively update their methods and earnestly search for absolute returns, considering all markets and asset classes



"Analysis Adds Up"

We believe safeguarding investor wealth is paramount. Apart from reducing risk by investing **across asset classes,** we take diversification to another dimension by ensuring every investment decision comes from a focused discussion between **investment managers, research analysts and analytics team – each with diverse sets of capabilities and experiences**

VLRT framework | the 4 dimensions in motion | dynamic risk mitigation via effective market timing
