Investment Approach

Indepth research to identify companies and sectors that are **positioned to capitalise on the infrastructure boom**.

Companies poised to benefit from the **revival in the CAPEX cycle** are identified for further evaluation.

Selection of **companies available at attractive valuations** and exhibiting **high growth prospects**.

Stock selection process uses **unconstrained approach**, allowing exploration of better returns potential.

Reasons to Buy

Investors desiring to **participate in the infrastructure sector's growth** to grow their wealth.

Revival of the CAPEX cycle will likely **spur new growth trajectories** for companies in the **infra sector**.

Potential for **tremendous growth** with the government's **renewed push** for the **infra sector**.

Investment **track record** of nearly **15 years**.

VLRT Framework| Adaptive Money Management

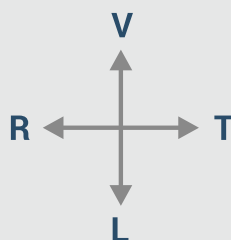

Being Relevant with 'predictive analytics'

VALUATION ANALYTICS

Knowing the difference between price and value.

RISK APPETITE ANALYTICS

Perceiving what drives market participants to certain actions and reactions.

TIMING

Being in sync with the waves of value and behaviour

LIQUIDITY ANALYTICS

Understanding the flow of money across asset classes.

The **core engine** that drives us and sets us apart is a **robust and differentiated investment framework** that enables us to **see beyond the horizon and stay relevant**. Our unique analytical framework for enabling 'predictive analytics' encompasses all available asset classes and sectors, formulating a multi-dimensional research perspective.

Why multi-dimensional?

The markets are a complex, dynamic system. There is no one formula or strategy or perspective that can consistently outperform. **A diverse set of variables and participants are continuously interacting with each other in myriad ways.**

In the face of this uncertainty and complexity, instead of limiting ourselves to any one school of thought **we have found consistent success by studying markets along four dimensions: Valuation, Liquidity, Risk Appetite, and Time [VLRT].**
