Investment Approach

Well diversified equity strategy with a flexible market cap allocation between large and mid cap stocks.

Stocks drawn from large and mid cap universe with **minimum 35% invested in each cap**.

Sector agnostic investment approach.

Stock selection process uses **unconstrained approach, allowing exploration of better returns potential**.

Reasons to Buy

Large caps help **reduce impact on portfolio** during volatility, while mid caps offer **superior growth potential**.

Flexibility for fund manager to do **tactical allocation**.

Stock selection process uses unconstrained approach, allowing exploration of better returns potential.

Investment track record of **over 15 years**.

As per SEBI circular dated October 6, 2017 large cap companies means 1st - 100th company in terms of full market cap, mid cap companies means 101st - 250th company in terms of full market cap and small cap companies means 251st company onwards in terms of full market cap.

VLRT Framework| Adaptive Money Management

Being Relevant with 'predictive analytics'

VALUATION ANALYTICS

Knowing the difference between price and value.

RISK APPETITE ANALYTICS

Perceiving what drives market participants to certain actions and reactions.

TIMING

Being in sync with the waves of value and behaviour

LIQUIDITY ANALYTICS

Understanding the flow of money across asset classes.

The **core engine** that drives us and sets us apart is a **robust and differentiated investment framework** that enables us to see **beyond the horizon and stay relevant**. Our unique analytical framework for enabling 'predictive analytics' encompasses all available asset classes and sectors, formulating a multi-dimensional research perspective.

Why multi-dimensional?

The markets are a complex, dynamic system. There is no one formula or strategy or perspective that can consistently outperform. **A diverse set of variables and participants are continuously interacting with each other in myriad ways.**

In the face of this uncertainty and complexity, instead of limiting ourselves to any one school of thought **we have found consistent success by studying markets along four dimensions: Valuation, Liquidity, Risk Appetite, and Time [VLRT].**
