Investment Approach

Invests at least 80% in manufacturing industries with strong profit potential from production & exports using technology & benefitting from 'Make in India' initiative

Flexibility to invest in companies across market caps and several manufacturing industries to optimize risk-return payoffs

As inflection points strategists, we will construct a focused or diversified portfolio based on the macro environment

VLRT risk mitigating framework and Predictive Analytics to dynamically manage the known risks and opportunities across the portfolio

Reasons to Buy

Indian manufacturing sector has matured, paving the way for a cost-competitive advantage on the global stage

Indian manufacturing is diversifying across industries with vast potential for import substitution as well as export-oriented growth potential

Capitalizing on various sub-sectors' cyclicity with promising growth prospects over the long term

Manufacturing companies set up after October 1, 2019 can pay reduced corporate tax, while GST has improved competitiveness for the sector

VLRT Framework| Adaptive Money Management

Being Relevant with 'predictive analytics'

VALUATION ANALYTICS

Knowing the difference between price and value.

RISK APPETITE ANALYTICS

Perceiving what drives market participants to certain actions and reactions.

TIMING

Being in sync with the waves of value and behaviour

LIQUIDITY ANALYTICS

Understanding the flow of money across asset classes.

The core engine that drives us and sets us apart is a robust and differentiated investment framework that enables us to see beyond the horizon and stay relevant. Our unique analytical framework for enabling 'predictive analytics' encompasses all available asset classes and sectors, formulating a multi-dimensional research perspective.

Why multi-dimensional?

The markets are a complex, dynamic system. There is no one formula or strategy or perspective that can consistently outperform. **A diverse set of variables and participants are continuously interacting with each other in myriad ways.**

In the face of this uncertainty and complexity, instead of limiting ourselves to any one school of thought **we have found consistent success by studying markets along four dimensions: Valuation, Liquidity, Risk Appetite, and Time [VLRT].**
