This Product is suitable for investors who are seeking\*

Scheme Riskometer

Benchmark Riskometer

- To Generate Capital appreciation
- To invest in a portfolio of Mid Cap Companies.

\*Investors should consult their financial advisers if in doubt about whether the product is suitable for them

## Investment Approach

Identify companies with **stable business models and on cusp of new growth trajectories.**

**Sector agnostic** investment approach.

Stock selection process uses **unconstrained approach, allowing exploration of better returns potential.**

## Reasons to Buy

- Invests in **high growth sectors**, and companies with niche market presence **positioned to benefit from economic growth.**
- Exposure to **potential leaders of tomorrow.**
- A broad **range of companies on every stage of the business cycle**, thus, providing a good mix of stocks.
- Investment **track record of over 20 years.**

As per SEBI circular dated October 6, 2017 large cap companies means 1st - 100th company in terms of full market cap, mid cap companies means 101st - 250th company in terms of full market cap and small cap companies means 251st company onwards in terms of full market cap.

## VLRT Framework | Adaptive Money Management

*Being Relevant with 'predictive analytics'*

### VALUATION ANALYTICS

Knowing the difference between price and value.

### RISK APPETITE ANALYTICS

Perceiving what drives market participants to certain actions and reactions.

### TIMING

Being in sync with the waves of value and behaviour

### LIQUIDITY ANALYTICS

Understanding the flow of money across asset classes.

The core engine that drives us and sets us apart is a **robust and differentiated investment framework that enables us to see beyond the horizon and stay relevant.** Our unique analytical framework for enabling 'predictive analytics' encompasses all available asset classes and sectors, formulating a multi-dimensional research perspective.

#### Why multi-dimensional?

The markets are a complex, dynamic system. There is no one formula or strategy or perspective that can consistently outperform **A diverse set of variables and participants are continuously interacting with each other in myriad ways.**

In the face of this uncertainty and complexity, instead of limiting ourselves to any one school of thought **we have found consistent success by studying markets along four dimensions: Valuation, Liquidity, Risk Appetite, and Time [VLRT].**

## Top 10 Holdings
