Investment Approach

Invests minimum 80% in the TMT theme, which includes consulting companies, digital service providers, data and data solution providers, fintech companies, internet companies, IT software/ hardware/ infrastructure/ services companies, media companies, platform/ aggregator services companies, telecom and related software & infrastructure companies

Money Flow Analytics to invest in sectors and companies that are expected to benefit from the telecom and media industry which is already emerging as a backbone of the consumption theme

Risk mitigating VLRT Framework and Predictive Analytics tools will be utilized to dynamically manage known risks and identify investment opportunities

Reasons to Buy

Investors wishing to participate in opportunities across TMT focus and innovation driven sectors

For long-term investors seeking a dedicated investment approach to the TMT sectors in India, and willing to invest in companies which can benefit from India's superior positioning as a burgeoning center of software and technological innovation

The technology sector is one of the fastest-growing industries in the world. Global spending on information technology is expected to reach tens of trillions of dollars in the years to come

Holistic exposure to TMT sectors ranging from semiconductors to automation provides several investment opportunities from the technology ecosystem

VLRT Framework| Adaptive Money Management

Being Relevant with 'predictive analytics'

VALUATION ANALYTICS

Knowing the difference between price and value.

RISK APPETITE ANALYTICS

Perceiving what drives market participants to certain actions and reactions.

TIMING

Being in sync with the waves of value and behaviour

LIQUIDITY ANALYTICS

Understanding the flow of money across asset classes.

The core engine that drives us and sets us apart is a robust and differentiated investment framework that enables us to see beyond the horizon and stay relevant. Our unique analytical framework for enabling 'predictive analytics' encompasses all available asset classes and sectors, formulating a multi-dimensional research perspective.

Why multi-dimensional?

The markets are a complex, dynamic system. There is no one formula or strategy or perspective that can consistently outperform **A diverse set of variables and participants are continuously interacting with each other in myriad ways.**

In the face of this uncertainty and complexity, instead of limiting ourselves to any one school of thought **we have found consistent success by studying markets along four dimensions: Valuation, Liquidity, Risk Appetite, and Time [VLRT].**
