Portfolio Rebalancing

	<p>Short Term Defensive Consideration: Short Term Defensive Consideration:</p> <p>Subject to SEBI (MF) Regulations the asset allocation pattern indicated above may change from time to time, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. It must be clearly understood that the percentages stated above are only indicative and not absolute and that they can vary substantially depending upon the perception of the Investment Manager, the intention being at all times to seek to protect the interests of the Unit holders. As per clause 1.14.1.2.b of SEBI Master Circular on Mutual Funds dated June 27, 2024, as may be amended from time to time, such changes in the investment pattern will be for short term and for defensive consideration only.</p> <p>In the event of change in the asset allocation, the fund manager will carry out portfolio rebalancing within 30 calendar days or such other timeline as may be prescribed by SEBI from time to time.</p> <p>Portfolio Rebalancing (in case of passive breaches): As per clause 2.9 of SEBI Master Circular on Mutual Funds dated June 27, 2024, as may be amended/ clarified from time to time, in the event of change in the asset allocation due to passive breaches (occurrence of instances not arising out of omission and commission of the AMC), the fund manager is required to carry out portfolio rebalancing within 30 Business Days.</p> <p>In case the portfolio is not rebalanced within the period of 30 Business Days, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee. The Scheme shall endeavour to minimize credit risk and develop a well-diversified portfolio of debt (including securitized debt) and other instruments.</p> <p>QMML may, from time to time, review and modify the Scheme's investment strategy if such changes are considered to be in the best interests of the unitholders and if market conditions warrant it. Though every endeavor will be made to achieve the objective of the Scheme, the AMC / Sponsors / Trustee do not guarantee that the investment objective of the Scheme will be achieved. No guaranteed returns are being offered under the Scheme.</p> <p>All investment decisions are based on quant money managers' investment framework – VLRT. In the face of this uncertainty and complexity, we have found consistent success by studying markets along four dimensions as opposed to limiting ourselves to any one school of thought: Valuation Analytics, Liquidity Analytics, Risk Appetite Analytics, and Timing.</p> <p>Valuation Analytics: Knowing the difference between price and value. Liquidity Analytics: Understanding the flow of money across asset classes. Risk Appetite Analytics: Perceiving what drives market participants to certain actions and reactions. Time: Being aware of the cycles that govern how the other three dimensions interact.</p>

	<p>The Scheme may invest in overseas financial assets for the purpose of diversification provided they are commensurate with the scheme's objectives, as and when permitted by SEBI/RBI. The value of investment in financial assets denominated in foreign currencies and domiciled outside India could be adversely affected by fluctuations in exchange rates as well as political risk, exchange controls and investment restrictions overseas.</p> <p>For detailed derivative strategies, please refer to SAI.</p>
